Outstanding Field Grown Perennials

[hostageek@hotmail.com](mailto:hostageek@hotmail.com)

[www.HostaGeek.ca](http://www.HostaGeek.ca)

Pat Vinish (902) 369-2258

Plants for shipping are bare root and well packed for Canada Post handling. Shipping, packing, and handling are flat rated for orders of any size: 15.00 to Alberta and British Columbia, 12.00 to all other provinces, and as an incentive; free to any Canada Post address "North of 60" or to the Labrador part of NL. (I want a 2 years progress report!) Prices are in Canadian funds of course. No GST, HST, PST, etc to add on!

- Items marked with (\*) in price column are new stock this year and therefore not necessarily field grown this year.

**PHOTOS** of many of the Perennials in our gardens and field rows are now available online at Skydrive:

<http://cid72608135acce68eb.skydrive.live.com/home.aspx>

Paste the preceding link into your browser address bar to see our shared photos. We are able to post 100's of named photos from our fields.

Any Perennial described on this list that has one or more photos posted on Skydrive will have the following symbol in the description box: #. More photos to be posted at unpredictable times!

# This symbol does not act as a live link yet, so look alphabetically on Skydrive in the appropriate folder.

Choose the order/payment method that suits you best.

Payments by cheque, money order, PayPal, draft, hyperWALLET, Internet e-mail transfer (via any Canadian bank account,) or "client to client transfer" within the Credit Unions (Caisses Populaire). (Request my account info for this "client to client transfer".) Sorry

no debit or credit cards. You **can** use **credit card** to pay via a PayPal account.

# Daylilies / hemerocallis 2011

**SSM'97** etc. = Stout Silver Medal Winner year 1997 etc. Highest annual award of American Hemerocallis Society.

Prices reduced for 2011: look for **Yellow Highlighted Names and Prices**. Our **new introductions** for 2011 are **Highlighted in Bright Green**

# means photo available online at:

<b>FERNS 2011</b> 			
Item ht/wide/colour/ time/conditions	Qty. Ordered	Price	Line Extension
<b>ADIANTHUM pedatum</b> (American Maidenhair) Zone 3 # 20/25 Fan shaped fronds, broader than long. Delicate appearing structure. Likes alkaline soil. Slowly creeps to make a colony. #	0	7.50	.00
<b>ATHYRIUM X Branford Beauty</b> 45/30 A cross of Japanese Painted and Lady Ferns. Red stalks, grey flecks on leaves. Very upright. A slow spreader. Zone 4	0	7.50	.00

<b>ATHYRIUM Branford Rambler</b> 45/30 Similar to Lady Fern only more red in stems. Spreading but not invasive Zone 4.	0	7.50	.00
<b>ATHYRIUM felix femina</b> (Lady Fern) # 70/80 Lacy, light green deciduous fronds. PM sun good for best colour. Enjoys acid soils. X Zone 3	0	7.50	.00
<b>ATHYRIUM felix femina Frizelliae</b> (Tatting Fern) 45/50 Unique rounded ball-like pinnae attached to frond midrib looking like a string of beads. Enjoys acid soils. Zone 3	0	8.75	.00
<b>ATHYRIUM felix femina Lady in Red</b> (Northern Lady Fern) 50/50 Selection of lady fern (Athyrium filix-femina var. angustum forma rubellum) lacy, light green foliage is held upright on dark, brilliant red-violet stipes. Enjoys acid soils. Some sun OK with moisture. Zone 4. #	0	7.50	.00
<b>ATHYRIUM niponicum Pictum</b> (metallicum) (Japanese Painted Fern.) 40/50 Glaucous-olive-green metallic cast foliage with reddish ribs. Random arrangement of fronds. PM sun steady moisture good for best colour. Slowly spreads. Enjoys acid soils. PofY'04 # Zone 4	0	7.50	.00
<b>Athyrium pictum</b> All green Japanese "Painted" Fern.	0	6.50	.00
<b>Athyrium X Ghost</b> 65/75 A rigidly upright fern to 2-3' tall with the silvery grey foliage of the A. niponicum pictum style. Sterile. Zone 3	0	7.50	.00
<b>BLECHNUM spicant</b> (Saw Fern) Zone 5. 40/35 Dark green leathery fronds with crosscut saw appearance. Evergreen, frost resistant = long fall showing. Clump forming. Enjoys acid soils. #	0	8.75	.00
<b>Dennstaedtia punctilobula</b> (Hay Scented Fern) 70/50/ Yellow-green hairy fronds, thinly textured. creeping ground cover type, sun tolerant. Enjoys acid soils. X #	0	6.50	.00
<b>DRYOPTERIS cristata</b> (Crested Wood Fern) 60/ / Wide graceful arching fronds. Frost resistant = long fall showing. Enjoys acid soils. Zone 4.	0	7.50	.00
<b>DRYOPTERIS felix mas crispa cristata</b> Frost resistant = long fall showing. Enjoys acid soils. X	0	7.50	.00
<b>DRYOPTERIS felix mas undulate Robusta aka (Dryopteris complexa</b> X 'Robust') Hybrid Robust Male Fern 100+/90. Graceful arching fronds. Naturalizes well, useful in erosion control. Frost resistant = long fall showing. Avoid growing in pots. Enjoys acid soils.	0	7.50	.00
<b>DRYOPTERIS goldieana</b> (Goldie's Giant Wood Fern) 60/50/grn-gold Avoid growing in pots. Enjoys acid soils.	0	7.50	.00
<b>DRYOPTERIS marginalis</b> (Eastern (Marginal) Wood Fern) X 60/45 Blue-green fronds, evergreen. Avoid growing in pots. Zone 2.	0	6.50	.00
<b>DRYOPTERIS spinolosa carthusiana</b> (ToothWood Fern) 60/45/ Lacy evergreen Avoid growing in pots. Enjoys acid soils. X	0	6.50	.00
<b>Fiddleheads</b> Several species of ferns have edible fiddleheads in early spring. Three of our listed species are known to be edible: Ostrich fern or Shuttlecock fern - <i>Matteuccia struthiopteris</i> , Cinnamon fern or buckhorn fern - <i>Osmunda cinnamomea</i> , Royal fern - <i>Osmunda regalis</i>	0		.00
<b>MATTEUCIA struthiopteris</b> (Ostrich Feather Fern) X 125/50 Our native edible "fiddlehead fern." Has separate sterile and fertile fronds. Graceful vase-shaped clump. Favours sweeter soils.	0	7.50	.00

<b>ONOCLEA – sensibilis</b> (Sensitive/Bead fern) 50/35 Oval, triangular coarse sterile fronds. Fertile stems mature with dark-brown beady endings, holding up well into following spring. Sun tolerant with ample moisture. ✕	0	6.50	.00
<b>OSMUNDA cinnamomea</b> (Cinnamon Fern) ✕ # 75/100 Stately upright fern. Rusty, hairy tufts at base of leaves. Separate fertile fronds prominent in spring. Best in ample moisture. More sun tolerant than many ferns. Enjoys acid soils. Zone 2	0	7.50	.00
<b>OSMUNDA claytonia</b> (Interrupted Fern) ✕ # 150/100 Stately upright fern having its fertile spore bearing leaflets occurring midway up each frond, giving the “interruption”. Tolerates drier sites than many ferns. Enjoys acid soils.	0	7.50	.00
<b>OSMUNDA regalis</b> (European Royal Fern) 130/100 Fuller more fleshy than American Royal Fern. Woolly caps on unfurling fiddleheads. Sterile fronds resemble locust tree leaves, fronds have astilbe flower head look. Tropical appearing but very hardy. Sun OK if wet. Evergreen. Enjoys acid soils. Zone 3.	0	8.75	.00
<b>Osmunda regalis var. spectabilis</b> ((American) Royal Fern) ✕ 100/50 Has separate sterile and fertile fronds. Needs steady moisture, then sun or shady locations OK. Remains green until hard freezes in fall. Clumping bases push above ground in maturity.	0	8.75	.00
<b>PHYLITIS scolopendrium</b> (Hart’s Tongue Fern) 🇨🇦 # 45/ / Medium-green undivided spear shaped fronds that are lightly ruffled. Prefers alkaline soils. Zone 5.	0	8.75	.00
<b>POLYSTICHUM acrostichoides</b> (Christmas Fern) 60/80 Evergreen, rich green. Boston fern appearance. Enjoys acid soils. Zone 3 ✕ #	0	7.50	.00
<b>POLYSTICHUM munitum</b> (Western Sword Fern) 120/140 Long tapered middle-green fronds. Zone 6.	0	8.75	.00
<b>Polystichum polyblepharum</b> (Korean/Japanese Tassel Fern) 60/60 Evergreen shiny dark-green fronds. Dappled shade best, needs good winter drainage. Zone 5 Can be used as a house plant.	0	7.50	.00
<b>POLYSTICHUM setif. Herrenhausen</b> (Soft Needle Fern) 50/60 Compact mound of arching fronds with delicate finely cut foliage. Zone 5	0	7.50	.00
<b>THELYPTERIS decursive-pinnata</b> (Japanese Beech Fern) 60/ / Lush bright green foliage. Vigorous grower, naturalizes well into colonies. For moist or dry shade. Very upright V-shaped posture. Zone 4 #	0	7.50	.00
<b>Generic Tags</b>	0		.00

Updated 14 Mar. 2011

## When to Divide Grasses

- divide when actively growing:
- cool season grasses - spring, not summer; again in early fall
- warm season grasses - spring until mid-summer (do not divide any time during the flowering stage)
- evergreen grasses and sedges - spring only

**“Each blade of grass whispers to another.”** A saying heard in southern Africa noting our interconnectedness and how each of our small efforts contributes to the results of the whole.

# ORNAMENTAL GRASSES

## 2011

Item ht/wide/scape/colour/ sun & moisture	time/	Qty. Ordered	Suggest ed Retail 6"	Line Extensi on
<b>ACORUS americanus</b> (Sweet Flag) Iris like plant. 90/60 Once used as a strewing herb due to its very aromatic leaves. A wetland plant for sun. # ✕		0	8.75	.00

Updated 14 Mar. 2011

**Assorted Food Crop Plants Mostly NOT available for Mailorder**

**Available on weekends at our Halifax Seaport Farmer's**

**Market location only, until end of May.**

**Success with these crops relies on EARLY SPRING planting!! If you wait until the "nice gardening weather" arrives, you have wasted your efforts. Plant these as**

soon as you buy them from us.

Food Crop Item	Qty. Ordered	Price	Line Extension
<b>ASPARAGUS</b> <b>JERSEY KNIGHT</b> Are all male hybrid plants, producing a reliable harvest of thick stalks. Hardy , easy to grow, and productive.	0	5 roots in 1.5 gal pot 7.50 ea	.00
<b>BLUEBERRY – Northern Highbush</b> <b>BLUECROP</b> Large good flavoured berries at midseason. Best flavour when fully coloured up. Upright open growth habit. Multi use: fresh or processed. An easy grower.	0	1 gal. pot 11.75 ea.	.00
<b>ELEPHANT GARLIC</b> Really a type of leek that produces a huge 4 or 5 clove bulb like a garlic. It has a mild garlic like flavour and cloves are great fresh in salads or super as a baked clove.	0	4" pots 1.00 ea	.00
<b>GOOSEBERRY</b> <b>POORMAN PINK</b> One of the largest fruited North American gooseberries and best flavoured too. Berries are wine red and sweet when ripe. Self pollinating bushes with serrated glossy dark-green leaves. One of few bushes that do fine in partial shade.	0	1 gal. pot 11.75 ea	.00
<b>Jerusalem ARTICHOKE</b> (aka Sunchokes, Sunroots)	0	4 tubers in a loose bag 7.00	.00
<b>POTATOE – Fingerling Red</b> <b>CECILE</b> –Red skin fingerling. Very unusual.	0	500 gm. Box 7.00	.00
<b>POTATOE – Low Glycemic Index</b> <b>NICOLA</b> If you are diabetic and have to eat potatoes, then this is the one.	0	500 gm. Box 7.00	.00
<b>RHUBARB</b> <b>STRAWBERRY RED</b> A great red fleshed rhubarb that has taken the long used generic term "Strawberry" (formerly meaning just red) as its specific given name.	0	1 gal. pot 7.50 ea	.00
<b>STRAWBERRY - Everbearing</b> <b>QUINAULT</b> Large tasty berries, produces berries on unrooted runners. "Everbearing" variety. Pick fruit in June to July and again in the fall.	0	4"pots .75 ea	.00

**Payment method preferred:**

This list can be returned by e-mail as an **Order Form**. At the minimum just indicate the quantity (**highlighted is nice!**) of the items you want -- we can work out all the rest. Make your order any other way you like. Some cut and paste what they want into a new document; others just list the names wanted and quantities. ---- whatever works for you. This form is set up for additions in the quantity and extension columns --- click the Table tab, then Formulas. Just advise your shipping address, intended payment method, and preferred date to receive your plants. Within a day or so we will send you back a confirmation of your order details and the final payment needed for the order. Send your payment after you get your order confirmation. Then enjoy the rest of the winter dreaming how to arrange the new residents for your garden.

**Thank you for considering our plants for your 2011 garden!**
